Target Audience:

This is a 3 credit hour course for individuals who work and live with children and adolescents with autism spectrum disorders. Please select either the graduate or undergraduate level course. To register for the graduate course, individuals must be admitted as a graduate student at-large. If the applicant has not been enrolled in a course at Illinois State University within the past year, then he/she must apply for the specific semester online at <http://www.admissions.ilstu.edu/apply/online.asp>. To receive priority registration, please begin the process immediately. Special and general educators, speech language pathologists, social workers, psychologists, behavior specialists, occupational and physical therapists and administrators will all benefit from this comprehensive course.
