Tier 2 Data Review:

Date: _____

Students in Group:	Is Trendline Above, Below, or Near Goal?	Action as result of the Data Review (e.g. adjustments to intervention, move student to different group, continue intervention, etc.)

1. What Percent of the Group is Improving Towards Their Goals (i.e. AIMSweb trendline indicates student is above or near expected rate of improvement)? _____

- **If 70% or more improving:**
  - **For any student above or near goal, consider:**
    - **Continuing intervention**
    - **Raising goal**
    - **Fading intervention**
  - **For any student below goal, consider:**
    - **Changing intervention**

- **If below 70%, consider changing the intervention for the entire group**

2. What, if any, adjustments will be made to the intervention?
